# Agenda

- **A Brief History of Federalism**
- **Federalism Under Attack**
- **The Washington Elites versus Everyone Else**
- **The New World Order: Leveraging the Washington Elites**
- **The Power of States' Rights**
- **Introducing *Our State, Our Rights***

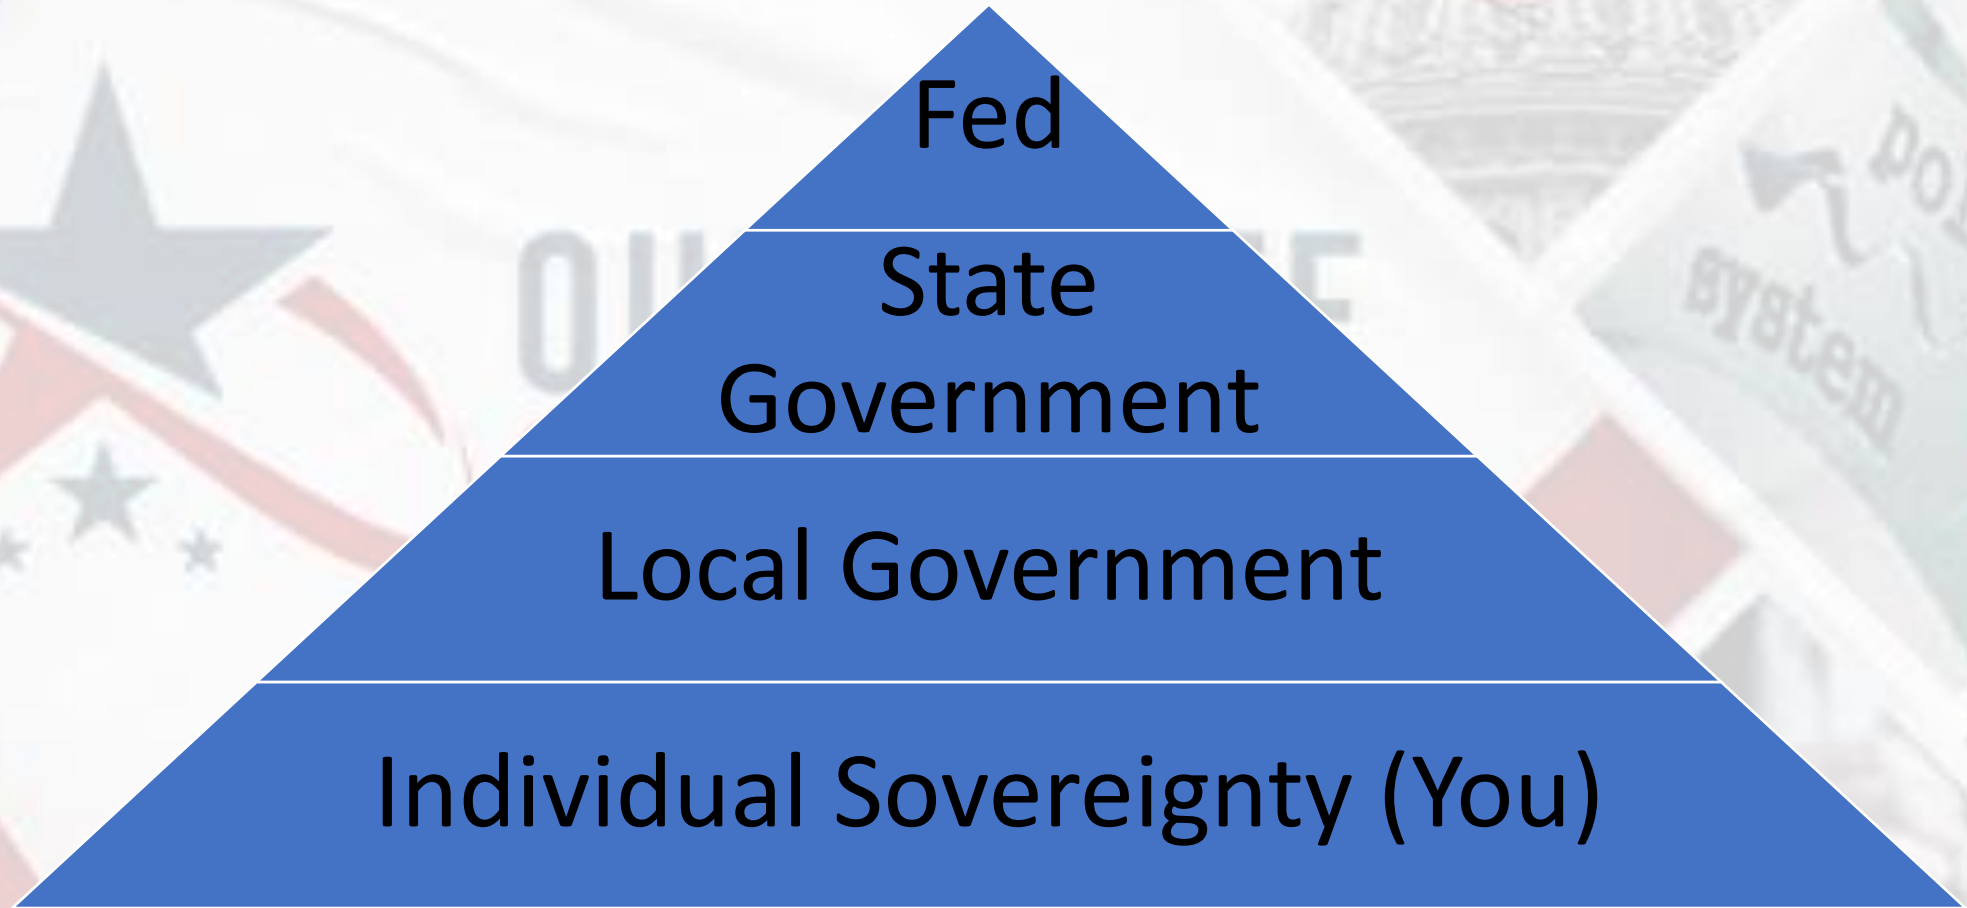

# A Brief History of Federalism

- The American Revolution was an *idea* that turned political history upside down
  - Individual Sovereignty replaced centralized authoritarianism
- To protect our new freedoms from a hostile world, ***the original states formed a confederation*** to coordinate:
  - Mutual defense
  - International treaties and trade
  - Interstate commerce
- To constrain the new Federal Government, and to protect individual and state sovereignty, a ***Constitution*** with checks and balances was ratified

# Limited Government “Pyramid of Power”

# Federalism Under Attack

- **The Civil War and Reconstruction:** A blow to state's rights
- **Federal Reserve Act:** Printing of money and QE
- **16<sup>th</sup> Amendment:** Federal claim on incomes
- **FDR's New Deal:** Entitlements and big bureaucracy
- **LBJ's War on Poverty:** More entitlements and bureaucracy
- **Obamacare:** More federal control and entitlements
- **Covid-19:** Individual rights obliterated during a crisis

# More Federal Overreach Coming

- **Climate Change:** Federal control over everything
- **National Popular Vote:** Replacing the Electoral College
- **Authoritarianism:** Rule by Executive Orders and unelected bureaucrats
- **Surveillance State:** Big Tech and Police State collaboration
- **Reparations:** Institutionalized racism
- **ESG:** State Capitalism (a form of Fascism)
- (The rest of this list is very long....)

# The Rise of the New World Order

- **An Elitist strategy to replace national sovereignty with globalist control**
  - Eliminate borders
  - Override national constitutions/laws
  - Disarm citizens
  - Execute a Great Reset of humanity politically, economically, socially, biologically, morally, and spiritually.
- **Geographic consolidation:**
  - Regionalism -- NATO, EU, ASEAN, OAS, NAFTA, G-7, G-20, etc.
  - Globalism – United Nations, World Economic Forum, World Bank, etc.
- **Functional consolidation:**
  - World court, world currency, world banking, world health, world environment, world labor, world policing, world social credit scoring (ESG)
- **Ultimate Objective: One World Government**

# The Problem is Washington, DC

- The Federal Government is now so powerful that it can do anything.
- We have entered post-Constitutional America.
- It doesn't matter which political party controls Washington, because the elitist/globalist cabal of Big Banks, Big Tech, Big Media, and Big Education corrupts all politicians there – **it has become the Permanent State.**
- **The Permanent State has been hijacked by the Globalists and is no longer representing or protecting American citizens or the States.**
- **Washington can no longer be reformed through Washington, by Washington politicians.**
- **Washington in 2023 is akin to London in 1776.**

# Only Remaining Hope is States' Rights

- The other Checks and Balances are controlled by the Permanent State
- States have geographic, economic, and operational resources that political parties or networks of angry individuals do not
- It is much harder for the cabal of urban and global Elites to corrupt 50 states than to corrupt one swamp in Washington
- An alliance of independent-minded states willing to confront Washington can have tremendous power and influence
  - Leverage for negotiations against Federal overreach

# Importance of Power at the State Level

- Each state has unique challenges and resources – cookie-cutter solutions from Washington are unlikely to be optimal locally
- 50 state “laboratories” experimenting with solutions is better than one mandated federal solution
- Each state has greater political sensitivity to local issues, cultures, and values
- 49 options for refuge if your current state becomes tyrannical – no options for refuge if the Federal Government becomes tyrannical

# About “*Our State, Our Rights*”

- We are a volunteer organization of engaged citizens passionate about individual and state sovereignty
- Our vision:
  - Less control by Washington
  - More control by individuals over their own lives
  - More control by states over their own destinies
- We are guided by the spirit of the ***Declaration of American Independence***, the ***U.S. Constitution***, and specifically by the ***9<sup>th</sup> and 10<sup>th</sup> Amendments***

# Closing Thoughts

- Local issues are important in state elections, but:
  - The biggest issue is what to do about the 800-pound gorilla in DC
  - Washington can usurp anything the states try to do
  - Our resistance to Washington must come via the States
- America is 3.8 million square miles with 340 million people.
  - It's absurd that our fate is controlled by 1000 traitors in the 68 square miles of Washington, DC.
  - We simply need to turn our backs on the traitors, not fight them or try to change them.
  - It's like the Wizard of Oz, who blusters behind his illusion, only to be unmasked by a tiny dog as a shriveled old con man hiding behind his curtains.
